

MOTHER'S EXTRA HELP

Savouring Life's Magic Moments

Bringing a new baby home from hospital is one of life's most exciting events.

No-one can quite prepare themselves, however, for the unexpected demands of becoming parents for the first time, or the challenges of welcoming your new edition into the home to join his or her siblings.

The Mother's Extra Help package aims to alleviate some of the stress experienced by parents during this time, by providing additional support around the house during the first few weeks.

From meeting visitors, making cups of tea, arranging flowers, cooking for the family, washing, ironing and keeping the house tidy and fully functional, this package will ensure that life's magical moments with your newborn are not lost to unnecessary worry and stress.

About the Package

This package has been designed to provide additional support to new mothers and can be tailored exclusively to suit the changing needs of each individual.

Your Comfort Keeper will be

- A Cook - to prepare nutritious meals
- A Shopper - to buy groceries and items needed for the home
- A Housekeeper - to undertake light housework and laundry
- A Florist - to attend to floral arrangements
- A Friendly face - to welcome guests
- An Errand Runner - to attend to day-to-day chores
- An Extra Set of Hands - to help where needed
- A Companion - to chat with over a cup of tea

How it Works

Following a free in-home assessment, a personal 'Mother's Extra Help' care plan will be prepared. Your Comfort Keeper will then arrange a suitable time to commence the service. A regular feedback system and continuous improvement process will also be implemented, to support the package.

About Our Caregivers

Each Comfort Keeper is carefully selected, screened and trained to provide the best service possible. From extensive background checks to ongoing training, we strive to offer the very best Comfort Keeper for any specific situation. Comfort Keepers' Caregivers are police and credit checked, insured and covered by Workers' Compensation.
