About the Package

This package has been designed to provide VIP personalised support for seniors and can be tailored exclusively to suit the specific needs of each individual.

Your Comfort Keeper will be

- A Transportation Resource - for medical appointments or shopping
- A Shopper - to buy items needed for the home
- A Cook - to prepare nutritious meals
- A Housekeeper - to assist with laundry, dusting and vacuuming
- A Gardener - to water plants and basic garden maintenance
- A Companion - to cook with, watch TV, share a walk or just to have a chat
- An Arm - to provide extra support and aid walking
- A Personal Attendant - to assist with showering and personal grooming
- Respite care for families

How it Works

Following a free in-home assessment, a personal 'VIP Senior Support' care plan will be prepared. Your Comfort Keeper will then arrange a suitable time to commence the service. A regular feedback system and continuous improvement process will also be implemented, to support the package.

Our Interactive Care Model

We adopt and encourage a model of Interactive Care, which focuses on a person's ability to perform their activities of daily living (ADL) with assistance and encouragement from their caregiver, rather than total dependence on them.

About Our Caregivers

Each Comfort Keeper is carefully selected, screened and trained to provide the best service possible. From extensive background checks to ongoing training, we strive to offer the very best Comfort Keeper for any specific situation. Comfort Keepers' Caregivers are police and credit checked, insured and covered by Workers' Compensation.
